

Disclaimer

In the following, GermanTwinScrewS GmbH is named GTS.

1. Online content or online offer

GTS assumes no liability for actuality, correctness, completeness or quality of provided information. Liability claims against GTS which concentrate on damages of material or which are ideally damages, caused by usage or not-usage of given information or by usage of false or incomplete information, are generally excluded, as long as there is no prove for grossly negligent or wilful fault by GTS.

All offers are without obligation. By law exclusively the general terms and conditions as well as service and engineering conditions are valid. GTS explicit reserves the right to change, extend, delete or to finally cancel pages, segments of pages or the complete offer without separate announcement.

2. Reference and Links

Direct or indirect references to other websites ("links"), which are without responsibility of GTS, will exclude obligation of GTS, except GTS had known about the content and the technical possibility to prevent the usage in case of illegal contents.

GTS explicit declares that with setting any links the linked sites have been free of illegal contents. GTS has no influence on actual or future design or contents of linked sites and explicit distances itself from all changes of linked sites. This statement is valid for all links and references at the GTS website as well as for those made in comments, forums, guest books or mailing lists. For illegal, false or incomplete contents and especially for damages caused by those contents, only the provider of those linked sites is liable, who refers to this information.

3. Copyright

GTS is anxious to use only GTS owned publications without other copyright of graphics, media, videos or written texts.

All trademarks and brand names mentioned at the website and possibly protected by third completely are liable to regulations of trade mark law or right of ownership. Only by mentioning the name there is no conclusion of defiance of rights.

All copyrights of published and by GTS made objects are by GTS alone. Copying or usage of those graphics, media, videos or texts in any other publications without approval of GTS are not allowed and oblige damage claims.

Extrusion Technology is GTS Technology
